**NEWSLETTER  
BEATCHAGAS**  
WORLD CHAGAS DISEASE DAY | MAY 2022

Con motivo del Día Mundial de la Enfermedad de Chagas (DMEC), el Grupo Técnico 6 - IEC Chagas del Programa de control de la enfermedad de Chagas de la OMS (<https://beatchagas.info/en/technical-group/>), en colaboración con Findechagas ([www.findechagas.org](http://www.findechagas.org)) propone organizar una acción de sensibilización con la participación de personalidades públicas involucradas con la causa. Diseñamos una camiseta con el candidato final del logo creado para el DMEC que vestirán personalidades públicas involucradas con la causa, como deportistas profesionales, artistas o comunicadores públicos de las ciencias.

El punto de partida se realizó con el capitán de la Selección Nacional de Brasil de baloncesto, Marcelinho Huertas, quien inició la cadena humana invitando a vestir la camiseta del Día Mundial de la Enfermedad de Chagas.

On the occasion of the Third edition of WCDD, the Technical Group 6 IEC Chagas of the WHO Chagas disease control programme (<https://beatchagas.info/en/technical-group/>), with the collaboration of Findechagas ([www.findechagas.org](http://www.findechagas.org)), is organising an open public awareness action, supported by public figures involved in the cause.

We designed a T-shirt with the final candidate of the logo created for WCDD, that will be worn by public figures involved with the cause, notably professional sportsmen and sportswomen, artists or public science communicators.

The idea is to start a "challenge" where one after the other are invited to wear it and, consequently, give visibility to the Chagas problem through their networks and the networks of the clubs or spaces to which they belong. The kick-off will be made by the captain of the Brazilian National Basketball Team, Marcelinho Huertas, who will receive the T-shirt from members of the initiative, record a video while wearing the T-shirt.
